

LEVERAGING EXPERTISE FOR DEVELOPMENT

THROUGH HIGH-LEVEL TRAINING

2

training sites:

Niger

Easily accessible from Niamey airport.

France

Access via Basel-Mulhouse, Geneva, Luxembourg, Lyon and Paris airports.

Our training courses are delivered on **two exceptional sites**, both indoors for **theoretical modules** and related scenarios and outdoors for practical modules and **outdoors scenarios**. **Accommodation and catering are provided on site** for maximum immersion in the subjects covered.

Our training courses are given in **small groups** for optimal assimilation. They are thought and developed together with our clients in order to be as close as possible to the needs and day-to-day realities of our trainees. They can be taught in **French and English**, with other languages available if required.

Choose the most relevant training site according to your offices' location.

Our story

"AACCES Support for development" is a company focused on assisting, supporting and building the capacity of international organisations and private companies – be in their strategic development or training their staff operating in sensitive areas. Created in 2014 in Niamey, AACCES has built its international reputation thanks to the solidity of its services, the realism of tailor-made training courses and the teaching qualities of its instructors. AACCES is today a recognised training centre for international staff and humanitarian workers based in sub-Saharan Africa and, since 2019, also coming from the whole African continent, Europe and the United States.

"ALBA Management & Consulting" is a consulting company focused on international project management and cooperation, with a strong security and safety component. Founded in 2018 in Luxembourg, ALBA accompanies its clients to strengthen their security and business travel functions, to optimise their internal procedures and train their employees and Board members.

AACCES and ALBA join forces in 2020 to enrich their service offering and propose a second training site located in France, easy to access for their European and international clients.

Our ambition: Deliver a relevant, innovative and tailor-made training offer, differentiated by its realism, professionalism and excellence.

Our objective: Strengthen your organisation by preparing your employees for tomorrow's challenges, as close as possible to field realities and international best practices.
